Butterflies' Newsletter

13.11.26

Butterflies have had another good week. In Maths they have matched 2D shapes to an outline and they have been learning the names of the shapes too. We are learning about the seasons and the children helped to weed the garden and plant daffodil bulbs for next year to enjoy in the Spring. In Phonics they have been listening and identifying lots of different sounds. They are learning lots of new skills such as cutting carefully with the scissors and getting in and out od the pool safely. Well done everyone Enjoy your weekend, Mrs Jeffries and Butterflies' Class Team.
