

In my Topic this week the children have been exploring fruit. We have been reading the story *Handa's Surprise* to explore fruits like guava, passion fruit and mangoes. The children enjoyed tasting the different fruits and designing and making their own fruit salads.

In literacy this week we have continued with our story 'Which food should I choose'. The children had to follow the instructions to make a banana split like the children in the story. The children then got to eat them at the end.

In cooking this week we have made cheesy scones. The children are really confident with their grating skills now and have shown they can use them safely.

In our zones of regulation lesson this week we have been exploring what tools help us when we are in each of the zones.

Have a lovely weekend,

Mrs Clarke and the class 9 team 😊
