4.4.25

The children have been learning about measurement in Maths and this week they have been ordering different length snakes and measuring dinosaurs using cubes. They have also enjoyed making models using junk modelling and printing with paint to make flower paintings. Some children are writing 3 letter words like: fox, leg and pan outside using the chalks. They also loved choosing a dinosaur to take up to our outside school and enjoyed playing with them. Enjoy your weekend, Mrs Jeffries and Badger's Class Team.
