

## Class 4!

In my topic this week Class 4 have been using pasta pieces to make art of their own! We used pasta as brushes for the children to explore and show off their artistic sides. During outdoor school this week the children were challenged to collect items hidden in the Outdoor school area. We hid feathers, leaves, twigs and pinecones for the children to find which they really enjoyed 😊

In Literacy this week we have been recapping our Zones of Regulation, looking at the Blue Zone. The Blue Zone is when we are feeling tired and have a lack of energy. We spoke about what we could do if this is the way we are feeling and designed our own Blue Zone faces.

In Play and Leisure this week, we were building train tracks working on our fine motor skills and driving cars around our car tracks!

Class 4 have impressed us all this week with their progress in completing their targets, they have all done so well. They have all shown a willingness and determination to improve which we have loved witnessing.

We hope you have a great weekend and can't wait to see you all on Monday 😊
