2025

We finished reading our book 'Barnabus' this week, we have been working independently writing who, doing, what, where, when using our colourful semantic skills - we have written extended noun phrases and prepositional phrases! The children's writing has been amazing.

In Maths, both groups have been focusing on multiplication and the links to addition and division. They have worked hard on a subject some find tricky. Well done! $3 \times 2 =$

We had a Victorian teacher visit us for Topic this week, she was very strict and the rules were horrible, the punishments even worse! The children found this very funny!

We have made the most of the sunshine this week playing and learning in the forest and meadow. Being outside in the fresh air really helps us with our communication skills too! Lovely friendships have formed.

Full disclosure, photos are from last week - we have been very busy this week having fun!
