

Hello and welcome to more news from the hub.  
As always, the children have been working incredibly hard and have produced some super work this week.  
Here are some of our highlights.

Literacy

## Literacy

In Literacy, we have been learning to identify the key features of biographies.

This will help us when we come to write our own biographies next week.

# Geography

In Geography this week, we have been learning how we can use lines of latitude and longitude to locate places around the world.

Lots more super Science this week.

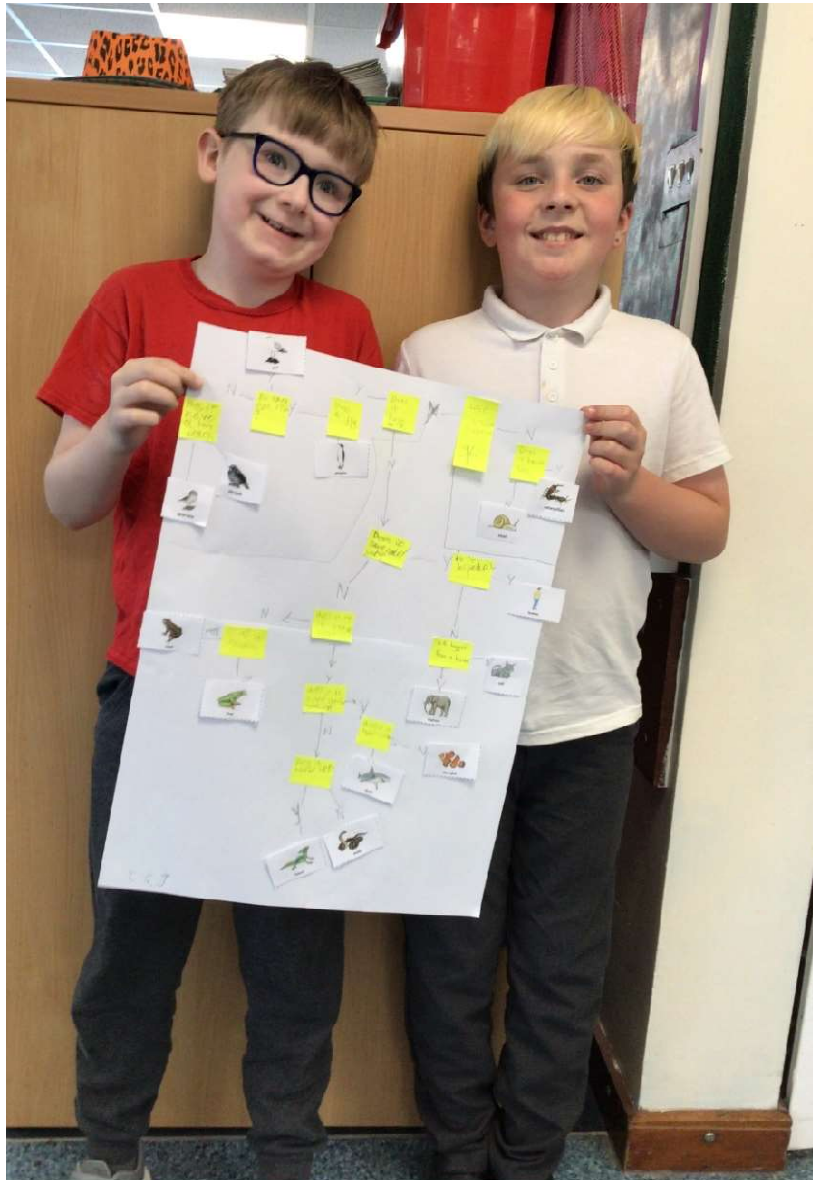

In Base 15 we have been learning how to group and classify animals depending on their physical characteristics.

The children in year 4 then used what they had learnt to help them to group and classify animals they found in the local environment during their forest school session.

In Year 6, Jake and George worked together to produce a fabulous classification key. **Great work, boys!**

All of us here at the hub hope you have a very happy and restful weekend.
