2025

In Literacy this week we have been writing our own adventure stories, we developed characters, settings, problems and solutions. We used some wonderful adjectives to describe our characters and settings. I really enjoyed reading the children's stories.

In Maths this week we have been looking at angles and turns, quarter turns, half turns, three quarter turns and full turns. We also know if a turn is clockwise or anti clockwise.

Next week we will learn more about measuring angles.

We have had more linking this week for sport's days, swimming and music. Well done everyone!

In Science this week we wrote a plan for our experiment, including labelling a diagram and writing a prediction. Our experiment was coke and mentoes! We discovered diet coke made the biggest explosion.
