

Class 4!

Class 4 have had such a fun filled week for their last week of the term! We particularly enjoyed our beach morning on Thursday where all the children were so happy and excited, communicating with their friends and getting involved with different sensory activities. It was lovely to see how the relationships they have built over the course of the year were in full flow as you can see in the pictures!

Class 4 thoroughly enjoyed the activity where the children had to piece their own face back together when we created our face jigsaw puzzles, so we repeated this activity challenging the children more by cutting up more pieces for them to put together. All children completed this activity superbly and were smiling throughout.

We have enjoyed looking at old pictures throughout the course of the year and seeing how much the children have changed since the beginning of September, the children were so engaged and shared laughs and smiles (even from pictures of the adults).

I am so proud to have taught Class 4 this year, and I have built memories with the children which will last a lifetime. I hope you can agree they have all developed so much too whether that be through their speech, language, relationships with peers, etc.

I hope you all have a lovely summer and have plenty of fun.

Class 4 team.
