

News from the Hollinswood Hub: 12th September 2025

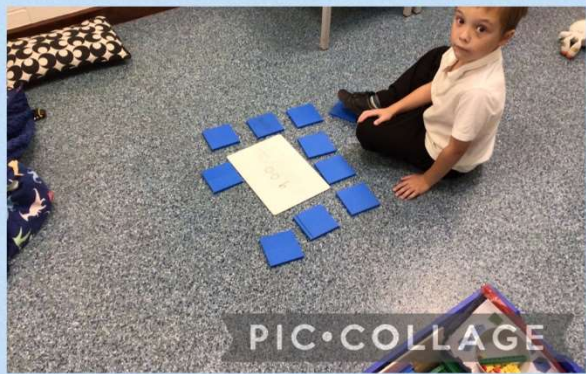

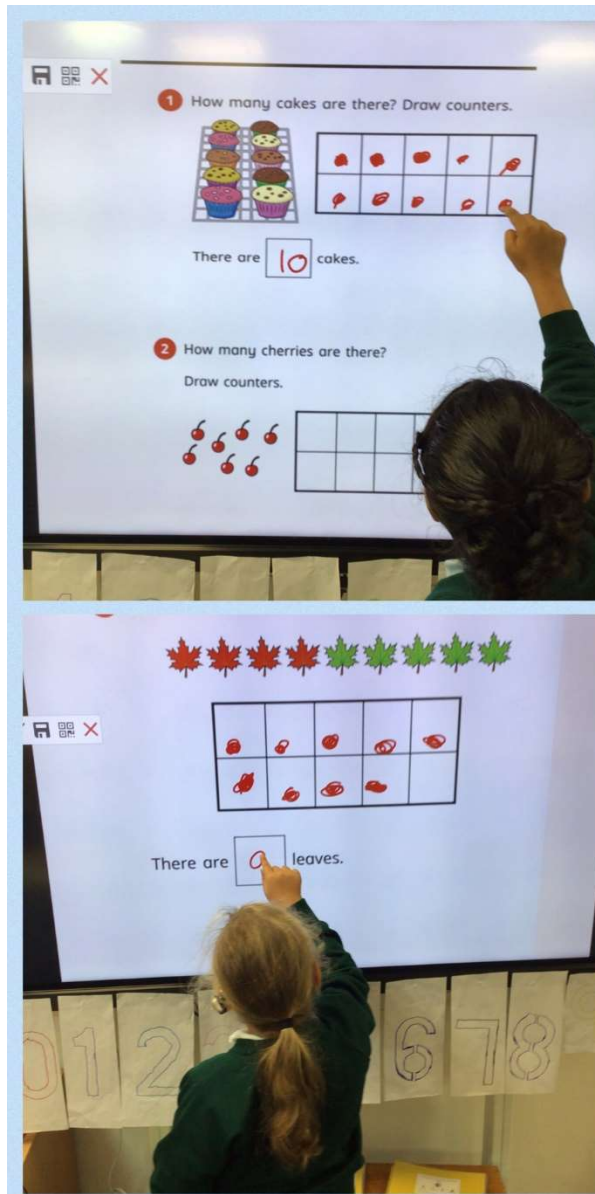

Hello and welcome back to another week of awesome work here at the Hollinswood hub. We have had a very busy week and everyone has been working really hard.

The children in year 5 are learning about life in Ancient Greece this term and Toby and Isaac had lots of fun when they joined their link class for a Greek Day. They tried on some ancient greek style clothing, took part in dance and role play activities and tasted some delicious greek foods.

PIC•COLLAGE

In Maths, we have been using Dienes apparatus and tens frames to help us to understand number and place value. Great work, everyone!

During the summer holidays, Mrs Telford went on lots of nature walks and made some lovely mandala designs using the things she found on her way. We really loved her creations so we decided to produce some of our own using natural resources we found around the school grounds.

This week's Picture News story was about about a church which had been moved from one location to another. After hearing the story, we made our own structures to see how easy it was to move them.

Here at the hub, we always try to work together as a team. In PE this week, we used the parachute to practise our team buliding skills.

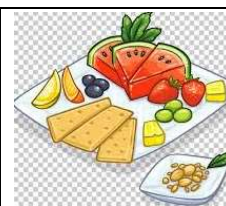

Also this week, we want to say a huge well done to all our new year 3 children for their excellent behaviour at lunchtimes. The lunchtime staff have commented on how sensibly they go into the hall and eat their lunch. Keep it up guys-we are very proud of you all.

A few reminders for this term:

PE: All the children will now have PE every Tuesday. Please can they wear their PE kit to school on that day.

Snacks: Thank you for your support in sending healthy snacks in to school. The children really enjoy having a snack at playtime and it helps to keep their energy levels up when they are working so hard.

As you can see, it has been another great week here at the hub.

We will be back next week with more news of our exciting adventures.
