

The children have had a very busy week this week in class nine.

In 'My Play and Leisure', we explored bubble play. The children had lots of fun making giant bubbles, popping them and whisking up bubbles in the water tray.

In 'My Wellbeing', we have been exploring our faces and the different parts of our face. The children used play dough to create their own faces.

During Zones of Regulation sessions, we looked at how we might feel in the blue zone. One of the feelings we explored was 'sad'. The children then created a sad face using lots of different blue materials.

In 'My Topic' we have continued looking at plants and how there are different types. The children explored lots of different plants and were amazing at classifying them as trees, shrubs or flowers.

Have a lovely weekend,

Mrs Clarke and the Class 9 team. 😊
