

Class 11

We have had another great week in class 11, We have explored cabbage leaves and ice cubes in the sensory trays. We found out about the importance of hand washing in cooking sessions because of germs. We went on a scavenger hunt in outdoor school and found some really cool shield bugs. We have planted onions and garlic to see if we can find out about roots and shoots in our topic lessons. We have been learning some new songs and exploring light and dark using lights and glow sticks when we played parachute games. In PE we have been working on balancing and ball skills, practicing throwing and catching with our friends. In our numeracy lessons we have been singing lots of songs, playing number games and working on our counting and place value targets. Our targets for this half term are in our home school diaries this week for our grown ups at home to see what we are working on in target time.
