

It has been a 'smelly' week in Class 5. In topic children really enjoyed peeling onions before placing them in water to see what will happen. Our room and corridor now smells of onions!

Children have used construction in Play and Leisure this week. They have loved building towers with the blocks and Duplo.

In Numeracy we have thought about finding pairs, making sets and finding the odd one out in a set of objects. Children have also worked towards their targets which included ordering numbers and naming 3D shapes.

In Literacy we have read, 'Mad About Minibeasts', and in Outdoor School this week we have been hunting for bugs. The children found lots including worms, spiders and millipedes. We also played with our teddy friends and found food for 'Sid the Squirrel'.

In art to the children practiced turning the cameras on themselves. They did really well and once on they took photos of different plastic animals.
