Class 11

Another great week in class 11, everyone is settling in so well. This week we have begun working on our own individual target boxes to develop our independent learning, we have had lots of fun activities to challenge us. We have been enjoying write dance sessions and story massage. We have also used the paints lots this week drawing self portraits and printing using bubble wrap and different 3D shapes to see what patterns we could make. We have seen some really interesting changes to our onions this week with long roots growing from the bottom, we have been really fascinated by this in class.

Please can everyone have a coat in school as we like to go outside as much as possible, can we also ask that children all have a PE kit in school for Wednesday and Thursday.
