

25.09.25

We have had another busy week in Class 7. The children have really enjoyed a range of creative and sensory activities in Literacy and Topic. They have also enjoyed working on their Phonics and Numeracy through practical tasks. In PSHE this week, we talked about what all children around the world should have in order to be safe, happy, and healthy.

### Literacy

We continued reading "Beauty and the Beast" this week. We focused on the magic rose given to the prince at the beginning of the story. The children read information and answered questions about roses, followed instructions to make rose scented playdough, and used adjectives to create rose shape poems.

### Numeracy

This week we continued to learn about Place Value through a range of practical activities. Children have been learning to:

- Count backwards
- Compare numbers
- Solve worded problems
- Use and understand a number line

### PE

Class 7 enjoyed taking part in some yoga for one of our PE lessons this week.

### Topic

This week in our People of the Past topic, the children learned about the explorer Christopher Columbus. We read the story of how he travelled across the sea and the children enjoyed making boats using a range of different materials. They had lots of fun testing the boats out in the water. We then learned about the Native American people who lived on the islands that Columbus travelled to. We looked at their feathered headdresses, and children created paintings of these.

### Storytime

This week we have been reading 'The Leaf Thief' by Alice Hemming and Nicola Slater.
