

This week, in Topic, children continued to think about who and why we stop and remember on the 11th of November. The children were all very good and sat quietly as part of our Remembrance Day assembly.

In Play and Leisure we all had a great time exploring pots and pans. In the first session the children filled and emptied the containers, as we had done in last weeks sessions. On the second session several of the children were using them as drums so we marched up to and around the MUGA. The children really enjoyed making their music as we walked!

In Numeracy we have copied and continued poppy patterns as well as ordering the different sized poppies from small to large.

The children loved playing a game of 'Splat the Sponge!', taking it in turns to ask for the splatter and watch the resulting splatter

Children had a fantastic time in Outdoor School again this week. We made more puddles and children loved walking up and down the grassy slope and digging for worms!!
