### Numeracy

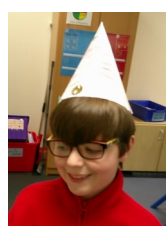

This week we have continued to work on our Addition and Subtraction skills through a range of practical activities. Children have been learning to:

- Make addition fact families
- Write number sentences
- Make number bonds to 10 and 20
- Subtract ones

### Literacy

This week in Literacy we continued planning our Be Our Guest dinner party as part of our work on 'Beauty and the Beast'. The children enjoyed making party hats and followed instructions to make biscuits.

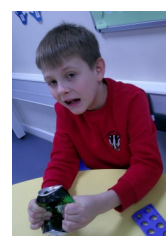

### French

As the children have been learning about Paris, this week they looked at the painting 'Mona Lisa'. Children enjoyed dressing up the way people might have looked back in the time when it was painted.

### Topic

This week, we continued our topic, 'What's it Made Of?' by learning about metal. We looked at objects made from metal and identified their properties by exploring whether we could bend, twist, stretch, squash, and see through the metal objects. The children then sorted a range of objects according to whether they are made from metal or not. We also learned about where metal comes from and the process it goes through.

### Storytime

This week we have been reading 'Look Up!' by Nathan Byron.
