Class 11

Another busy week in class 11. We have been learning more about remembrance and we joined in with the two minute silence with the whole school on Tuesday. We have been being creative and making our own poppies using different media. We have been making sandwiches in cooking and visiting the zoo in art. During our multi sensory lessons we have been exploring light and dark using the parachute and glow sticks, we had lots of fun. Some of us have been attending after school clubs which has been lovely to see, working with different friends and grown ups. In our topic linked literacy lessons we have been looking different adult and baby animals and matching them - we explored the life cycles of butterflies and frogs and realised that their babies look very different to the adult, just like in the book we have been reading , Monkey Puzzle by Julia Donaldson. Chocolate the bear has been joining in with all of our activities too!
