

Wow! What a busy, fun-packed week we have had.

Our children explored the wonderful world of farms. They discovered the different produce animals give us, enjoyed a sensory farm experience, matched animals to their produce, and even role-played at the farm shop.

We began our journey into 3D shapes. The children loved building towers, experimenting with cubes, cones, and spheres, and investigating the unique properties of each shape. Hands-on learning at its best!

Inspired by Hey Duggee, the children earned their Stick Badge. Following step-by-step photographic instructions, they crafted magical leaf wands using glitter, leaves, sticks, and wool. The creativity and teamwork shone through every wand.

Have a lovely weekend,

Mrs Clarke and the Class 9 team. 😊
