

News from the Hollinswood Hub: 5<sup>th</sup> December 2025

Hello and welcome back to another week of news from the Hollinswood hub.

  
Maths

In Maths this week, we have moved on to looking at the properties of 3D shapes.

**Challenge**

Can you name a 3D shape which has 6 faces?  
Is there more than one possible answer?

Science

In Science, we used role play to demonstrate how different animals survive through cold weather conditions.

Can you tell which animals migrate, hibernate or stay active during the winter?

We also used sticks, straw and leaves to create a cosy hideaway for a hibernating

One of our highlights this week was our visit to Telford Minster.

We went with our friends from Hollinswood to part part in the Christmas Experience.

We enjoyed learning about different parts of the Christmas story.

The children were all amazing, both in the Minster and on the walk there and back. We even got to enjoy a drink and a biscuit at the end of our visit.

PIC•COLLAGE

We would like to say a special well done this week to both Jake and Maini. Maini was awarded a special celebrations certificate in assembly and Jake was invited to join Mrs Osbourne and Mrs Morris for Diamond Diners.

We hope you all have a wonderful weekend.  
We will be back with more news next week.
