

Class 6

20.03.26

The children in class 6 have had a fantastic week.

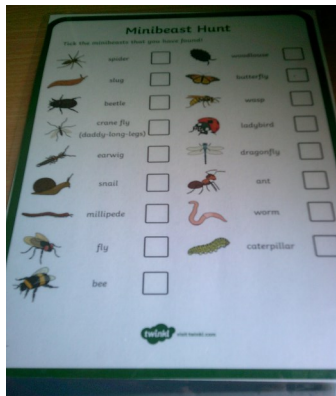

In Numeracy, the children have started a new topic based on division. The children have been using the divide by sharing method and they have all enjoyed sharing items between a number of plates.

This week, the children have continued to read their new text, *Treasure Island*. The children been using a range of adjectives to describe a pirate scene.

In SPAG, the children have been learning about Spring. The children were able to describe what happens in Spring and they gave some very good examples of how the trees start to bud.

This week, class 6 have participated in their second forest school session. Last week, they explored the area to see what was in there and this week, they have been on a minibeast hunt. The children really liked the minibeast hunt and they found a least four different types of minibeasts.

Next Wednesday will be our last swimming session of the year. The children have really enjoyed their swimming sessions and they are all getting a lot more confident in the water.

Have a great weekend!
