

We've had a lovely Easter-themed week in Class 9.

During outdoor learning, the children made salt dough and decorated their salt-dough eggs using natural items they found around the forest area. Their creativity really shone through.

We also joined Classes 5 and 11 to paint giant Easter eggs. The children had so much fun experimenting with sticks, spray bottles, and paintbrushes to create colourful patterns and textures.

Back in the classroom, we've introduced some new sensory equipment, which has been a big hit. The trampoline has quickly become a firm favourite and has offered the children a fantastic way to regulate and enjoy movement.

Mrs Clarke and the class 9 team 😊
