

Badgers have had a fantastic week. In Phonics they are learning SATPIN with many of our children recognising the letters and saying their sounds, blending them to read words and also forming them too. In Maths the children have been sorting 2D shapes, making patterns and pictures naming and describing the shapes. In topic they have been amazed at how quickly their sunflowers and beans are growing and they have been busy updating their bean diary too. Enjoy your half-term break and the beautiful sunshine forecast, Mrs Jeffries and Badger's Class Team.
