

We have had a lovely week working on our new book, 'Funny Bones'. The children thought about where the three skeletons might go on their walk. We had some lovely ideas including going for an ice cream!

On Monday we all went to the food tech room to make butterfly cupcakes. We baked the cakes, cut out the top then made butter icing to spread in them.

In computing the children had a fantastic time using the schools cameras. They found lots of pictures of different technology.

Whilst out at Outdoor School children made a big skeleton out of sticks and leaves, making leaf soup as well as jumping in puddles and running from water sprays!

As part of My Wellbeing we went to the MUGA and played games with the parachute. The children loved sitting and lying on it whilst everyone else shook it.
