Squirrels!

This week, Squirrels have had a fantastic week looking at Diwali and Fireworks! We have completed various activities and have been decorating our windows with colourful Rangoli patterns.

In Topic this week we are now looking at Dinosaurs for the term. We have listened to different Dinosaur songs, looking at the heights of different dinosaurs noticing whether they are big or small. Our word of the week is extinct, and knowing that this means they are no longer around. The children have also been labelling different body parts which they did fantastically!

In PE our children have been completing various movement skills and dodging dinosaurs through fun interactive games. Squirrels participate and transition to the hall amazingly for our PE sessions. PE is on a Wednesday and Friday if you could bring in PE kits this would be great.

In Outdoor School we have been making our own mini trees, the children were tasked to find a little stick and decorate the stick with different coloured leaves which they all engaged with 😊.

The children have all came back after half term very excited and were happy to share what they got up to in their week off!

We hope you have a super weekend and see you all on Monday 😊!
