

I can make products through stages of prototypes, making continual refinements.

I can ensure products have a high quality finish, using art skills where appropriate.

I can use prototypes, cross-sectional diagrams and computer-aided designs to represent designs.

I can design with the user in mind, motivated by the service a product will offer (rather than simply for profit).

I can use software to design and represent product designs.

I can refine work and techniques as work progresses, continually evaluating the product design.

I can make products by working efficiently (such as by carefully selecting materials).

I can design with purpose by identifying opportunities to design.

I can design products that have a clear purpose and an intended user.

I can make products, refining the design as work progresses.

I can use software to design.
