

Class 6

04.07.25

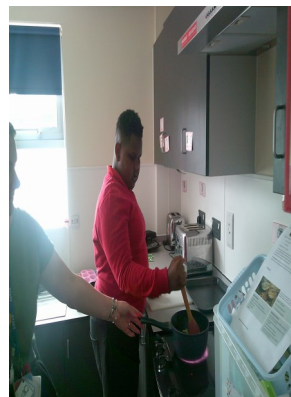

The children in Class 6 have had a fantastic week.

The children have had a themed week due to the cancellation of their forest schools visit. The children have focused on life in the Stone Age and they have participated in a range of activities.

The class have enjoyed cooking Stone Age food and they made their own stew which included the following ingredients, leeks, mushrooms, garlic, butter and salted water, and they made their own berry and honey dessert. Most of the children sampled the food. Some children liked the taste but some said they preferred modern day food.

In addition, the children made a Stone Age figure of themselves and they decorated it with cave style drawings.

In literacy, the children have continued to read their text, 'Fantastic Mr. Fox' by Roald Dahl. The children have been predicting what they think will happen towards the end of the story.

Have a great weekend!
