

Newsletter 4th July 2025 Class 3

This week in class 3 the children have continued with our work on positional language in Numeracy. The children have been playing on games on the computer where they need to move characters left and right and forwards and backwards.

In Literacy we have continued with our book 'Aliens love underpants' and the children designed and created their own alien. We also did our independent writing task that we do each month and the children had a picture of a beach for them to then create some sentences about what they could see.

In our PHSE lesson we have been talking about the different types of touch there is and how some touch is nice and some touch is not so nice. The children played a game when they needed to pass the touch to one another around the circle and then they completed a worksheet to record their preferences.

It was super hot on Monday and so the children had fun with the water spray bottles and water shooters with their friends and paddled their feet in the paddling pools.

They also enjoyed relaxing with their feet in ice water while having an ice pop.
