

Children have really enjoyed using the bubble mixture this week. they have made massive bubbles using a large hoop as well as smaller ones with individual bubble wands. In Play and Leisure children used pots and pans and various dried food products the children really enjoyed making super sounds when the pots and pans were banged and scraped! In music we have listened to songs and used body percussion to beat along to the song.

In literacy we have read 'Ketchup on my Cornflakes' and written sentences using colourful semantics along with making our own apple pies. In cooking we used the blender and thought about the safety of how we put the plug into the socket. We revisited this in literacy when making and sorting the apple filling.

In numeracy we are starting to think about time and what we do on each day.
