In Literacy this week the  children asked if we could have the theme 'Sci-Fi' We wrote descriptions about space, aliens and designed our own planets. .

In Maths we have been re learning our times tables.

$$3 \times 2 =$$

It is good to keep practising as these can help with lots of other sums too. We concentrated on our 2's, 5's and 10's.

We really enjoyed our trip this week, we went to Carding Mill Valley on the school mini-bus. We loved paddling in the stream and playing in the fields. We saw some sheep and a pigeon! We also all enjoyed an ice cream, which helped cool us down on a warm day.
