

Colourful Semantics Policy

Updated: September 2023

Review date: December 2025

Why do we use the Colourful Semantics approach at Haughton School?

The Colourful Semantics approach was created by Speech and Language Therapist (SALT) Alison Bryan. It is a Speech and Language Therapy technique that uses colour coded words; this helps the children to learn the different elements within a sentence and how to join them together correctly. It supports children in developing their:

- Spoken sentences
- Ability to answer WH-Questions
- Use of nouns, verbs, prepositions and adjectives
- Story telling skills
- Written sentences
- Understanding of grammar

The Colourful Semantics approach teaches children different 'types' of words and associates these words with particular colours. The use of different colours helps the children to remember all the parts of a sentence that they need to use. At Haughton School we use the following colour words in line with the original Colourful Semantics program:

- Level 1 – Who? "the man" (Subject – Orange)
- Level 2 – What doing? "is eating" (Verb – Yellow)
- Level 3 – What? "the sandwich" (Object – Green)
- Level 4 – Where? "in the kitchen" (Location – Blue)
- Level 5 – Describe? "big" (Adjective – Purple)

These are the agreed symbols that we use:

Colourful

Semantics is a useful tool to support children with:

- Mild and Moderate Learning Disabilities
- Speech, Language and Communication Needs
- Specific Language Impairment (SLI)
- Autistic Spectrum Disorders
- Hearing impairment
- Cerebral Palsy
- Aphasia
- Down Syndrome

How and when do we use the Colourful Semantics approach?

- *Literacy lessons*
- *Target time*
- *Within 1-1 and group therapy sessions*
- *Reading time*
