Class 1 News

Another week has flown by with lots of fun, engagement and learning taking place in Class 1. The children have been busy exploring our Outdoor Learning area. They enjoyed hunting for autumnal signs and recording what they had found. The children also took time searching for bugs. Guess what they found...spiders and worms! The children, (some more than others!) were fascinated by their finds, and how quickly they moved!

One of our favourite stories this week has been:-

Tapestry

We love sharing what we have been doing in class via Tapestry, as often as possible.

If you are able please remember that we encourage you too, to post family life, WOW moments etc . The children's faces light up when we share what's been posted from home. It's a lovely way to increase the home school link for the children, and develop communication skills too.

Weather

Now the weather is changing, if you would like to send in a puddle suit & a pair of wellies (named) for us to keep in school please do. Even in the wet colder weather we still get out as much as possible, so like to be dressed for it! Thanks

Happy weekend! Mrs Ratcliffe, Mrs Cox and The Class 1 Team
