

This week we welcomed Betty the Bear to Class 5. The children had a lovely time showing Betty some of the activities we do. She enjoyed a ride on the bikes and scooters, went on the roundabout and see-saw, and joining in with our Write Dance session.

Children have started to look at measures and patterns in Numeracy. This week they have compared big and little animals and thought about which are heavy and which are light.

In Literacy we practiced our spellings and thought about how to blend and segment words associated with our Gobbly Goat book.

In Play and Leisure we made dens under the chairs and tables using a parachute and large pieces of cloth. The children listened to, *We're Going on a Bear Hunt*, as they thought their den was like a cave.

At Outdoor School the children were really good at asking for water to make their puddles. They had a fantastic time digging and then jumping in their muddy puddles!
