

## Class 12!

Class 12 have smoothly transitioned back to school after the Christmas break and have been participating in exciting activities looking at what they were doing during the Christmas break and looking at New Years Resolutions.

In Literacy we have moved on to a new book 'Stitch's Valentine' The children have really engaged with this book so far and have been developing their vocabulary using exciting adjectives to describe characters and pictures from the book.

In Numeracy this week our 3 groups have been looking at 'Number bonds to 10' 'Number bonds within 10' and 'number bonds to 100' with a focus on tens. The Children have showed great perseverance this week. Continuing to try their hardest when they come across a challenging question.

Class 12's new Topic is all about 'Feel the force' looking at magnets, friction, gravity etc. The Children have enjoyed taking part in investigations linked to friction and finding out which materials (rough and bumpy) would have more impact on the cars speed along the ramp (as you can see in the image above). They have learnt that friction works in the opposite direction to the movement. 😊

We hope you all have a brilliant weekend, Class 12 Team 😊
