

## Class 12!

Class 12 have had such an amazing week, the adults are so pleased with the way in which friendships are developing, welcoming their friends in the morning and saying goodbyes at the end of the day.

In Literacy we are still looking at our book 'Stitch's Valentine' The children have really engaged with this book so far and this week we have been looking at creating Valentines cards for our friends in class, focusing on capital letters for names and ensuring all children know how to give a compliment.

In Numeracy this week our class have moved on to shape looking at recognising 2D and 3D shapes. This is our first week on shape the class 12 have shown some super skills in recalling some of their learning from last year.

Class 12's new Topic is all about 'Feel the force' looking at magnets, friction, gravity etc. The children have looked at magnets this week, gaining an understanding of which materials are magnetic and which are non-magnetic materials. We made a prediction of which materials were going to be magnetic and put it to the test and a lot of the children predicted many of the metal objects to be magnetic! 😊

PE for Class 12 will now be on Tuesdays and Fridays so please can you send appropriate clothing!

We hope you all have a brilliant weekend, Class 12 Team 😊
