

Class 4 Newsletter – 06/02/2026

We've had a really lovely week in class, and the children have been busy learning in lots of hands-on, practical ways that they've really enjoyed. In our topic work, we built and tested the boats the children designed. They were so proud to see their ideas come to life, and there was plenty of excitement as we tried them out to see which ones floated and moved.

Our cooking sessions continue to be a big hit. This week we made bread, and the children loved getting stuck into the mixing, kneading, and of course tasting their creations. It's been a great way to build confidence and independence while having fun.

On Friday we joined in with Number Day by taking part in a range of number games. The children engaged brilliantly and enjoyed the chance to explore numbers in a playful way.

In Literacy, we've been looking at the fable *The Tortoise and the Hare*. The children have enjoyed talking about the characters, acting out parts of the story, and thinking about the message behind it.

Overall, it's been a positive and enjoyable week, and we're really proud of how well the children are doing. We're looking forward to more learning and fun next week.
