

This week in literacy, we began our new story, *The Enormous Turnip*. The children have really enjoyed exploring the text and have been following photographic and colourful semantic instructions to make their own turnip. This hands-on activity has helped them develop sequencing skills, strengthen their vocabulary, and deepen their understanding of the story.

In topic, the children have continued exploring their environment. They spent time in our forest area, taking photographs of the different plants and trees they discovered. This supported their observation skills and encouraged them to look closely at the natural world around them.

We also had an amazing first swimming session. The children were fantastic, sensible, enthusiastic, and eager to learn. It was wonderful to see their confidence growing already, and we are looking forward to seeing their progress over the coming weeks.

Have a lovely weekend,

From the class 9 team 😊
