

## Topic

This week the children have continued our Lets Plant It topic. The children have been learning about the features of different plants and the functions of different features. The children used the VR headsets to visualise the functions of the different features. The children have also recorded the changes in the seeds during our experiment. Many of the children could identify that the seed with water, light and air has started to germinate. They could also explain that the other seeds had not started to germinate due to the lack of one the conditions seeds need.

## Numeracy

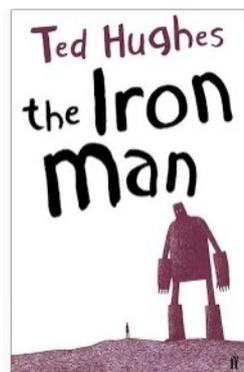

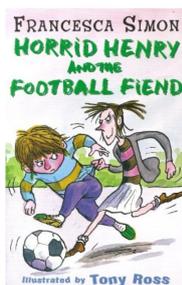

This week in Numeracy the children have continued to concentrate on developing their multiplication and division skills. Some of the children have been learning about the multiplication symbol, writing number sentences and using the times tables knowledge to solve equations.

## Literacy

This week in Literacy the children have completed our focus on the Iron Man. This week the children have been learning to sequence the events of the story and have been learning to sequence instructions. The children have also written a review of the story. They have been identify what they enjoyed and what they didn't and giving reasons for their opinions.

## Story Time

This week in story time the children have been listening to Horrid Henry and the Football Fiend.

# Have a great weekend.
