Literacy

This week we have started to read our new story "Beauty and the beast". The children have looked and listened to some of the clues and props and talked about the various objects. They have also listened to the Prince's favourite things and then shared some of their favourite things. The children enjoyed looking at different images from the ball and answered who, doing, what questions.

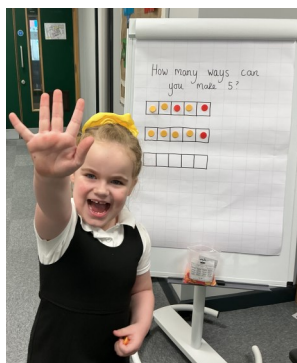

Numeracy

This week the children have been working on Place Value and Addition and Subtraction.

Some children have been:

- Representing 5
- Exploring the composition of 5
- Writing number sentences
- Finding fact families

Topic

This week we have started a new topic "Green fingers". The children have been observing leaves and sorting them into different groups.

They also had fun completing a plant scavenger hunt.

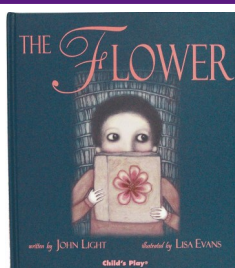

They have enjoyed planting various seeds such as tulips, sunflowers, cress

and dutch iris and are excited to see how they change over time.

A huge thank you to one of our families who donated two apple trees. The children have planted them and we will be recording their height over time.

Storytime

This week we have been reading "The flower" by John Light.

**HAVE
A GOOD
WEEKEND**
