

This week Class 5 has been exploring seeds. We all squashed, or cut, a tomato and found that there were lots of small seeds inside it. We then explored a mango and found that it only had one seed but that it was big. Next week we are going to plant some of our seeds so we are looking forward to seeing if they will grow.

In Outdoor School we made a large mud picture. We made a tub of mud and used our hands, and sticks, to make marks. Some of us also used the water sprays to change the picture and watch as the mud ran down the picture. We also took bubble mixture outside and the children had a fantastic time making extra big bubbles.

In cooking this week we made chocolate chip cookies. The children have really enjoyed eating them at snack time this week.

We went to the MUGA for PE and explored some different equipment. The children had a lovely time seeing how many basket balls they could score.

Can I please remind parents and carers that it is getting warmer and sunnier. Can you please send your child a labelled sun hat and suncream in as soon as possible. Thank-you.
