Hedgehog's Newsletter

We had a lovely day on Monday. As part of the World Mental Health Day we made pizza within our cooking session. The children made the dough, chopped the tomatoes and peppers using specialist sharp knives and grated our own cheese. Everyone was really happy to cut them up and eat them on Tuesday!

On Wednesday, in our Outdoor School session, we used flour and a sieve to make our own skeleton pictures. The children watched as the dog and little skeleton were revealed before having a go themselves.

On Thursday we used chalks and black paper to draw our own skeletons. The children also recorded the start of the story 'Funny Bones' on to 'Talking Tins'. They really enjoyed listening to it.

On Friday we had a super time making our own toast and hot snack in the Food Tech room. The children are getting really good at making their own toast and crumpets.
