Butterflies' Newsletter

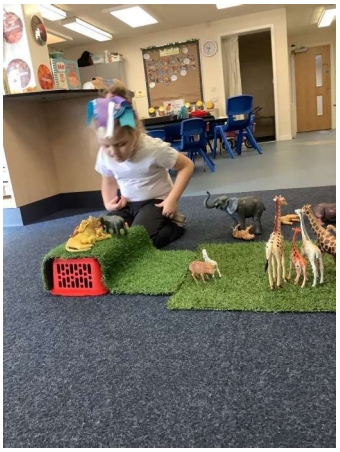

16.10.26

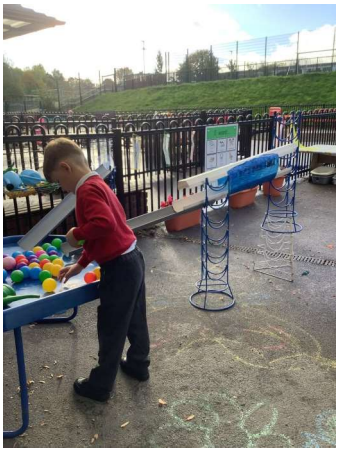

Butterflies have had a super week. In Maths they have been busy sorting vehicles by colour and if they are the same. In topic they have been using their hands to explore mixing colours and then using the scissors to cut their handprints out. They enjoyed playing parachute games on Monday for our Mental Health Day. They have been learning how to make models following a visual support and are now doing this independently. There's lots of wonderful child-initiated learning going on too. Well done Butterflies. Enjoy your weekend, Mrs Jeffries and Butterflies' Class Team.
