Woodpecker class

23.10.2026

Topic

This week in Topic the children learnt about rocks and how different types of rocks are formed. The children explored the real life examples of rocks and made their own rock cycles using Star burst sweets. The children also explored the rock cycle using the VR headsets. After Half term we will start our new topic called Foot-prints from the Past. This will begin with a visit to Lapworth Museum of Geology at Birming-ham University.

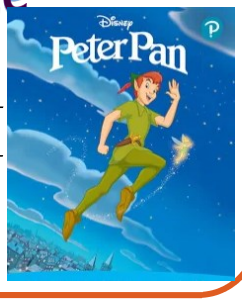

Shared Learning

Thank you to all those that could make it to our Shared Learning session on Wednesday the chil-dren very much enjoyed sharing all of the activi-ties with you all.

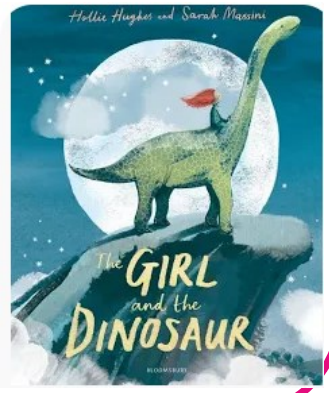

Story Time

This week in story time the chil-dren have been listening to Dis-ney's Peter Pan story.

Literacy

This week in Literacy the children have contin-ued reading the Girl and the Dinosaur. The children have been using the Symwriter pro-gram to write their own part of the story where they go exploring with the dinosaur. We had some fan-tastic ideas and some very creative stories. We will continue and com-plete this story af-ter half term.

Our last swimming session is on the first Wednesday back after half term. The children will also start Forest School on the second Tuesday back after half term.

Have a great weekend
